

HB1196 Sec 14

I have lived on this planet for 93 years. Trading land that was set aside for preservation to developers is wrong. We need to save these 17 acres for our children, our grandchildren and great-grand-children and for all future generations. That is what is wrong with this planet – greed, greed, greed and no thoughts to the future. Please remove Sec 14 from HB1196.
